SECTION 4: RISK FACTORS

GENERAL RISK

Investment in non-convertible securities is risky, and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it. Specific attention of investors is invited to statement of risk factors contained under Section 4 of this Key Information Document. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor's decision to purchase such securities.

RISK FACTORS

In respect of the Debentures issued pursuant to this Key Information Document, the following are the risks relating to the Company, the Debentures and the market in general envisaged by the management of the Company. Potential Investors should carefully consider all the risk factors stated in the General Information Document, this Key Disclosure Document and/or the PPOA for evaluating the Company and its business and the Debentures before making any investment decision relating to the Debentures. The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures but does not represent that the statements below regarding risks of holding the Debentures are exhaustive. Potential Investors should also read the detailed information set out elsewhere in the General Information Document, this Key Disclosure Document, and/or the PPOA and reach their own views prior to making any investment decision.

4.1 REPAYMENT IS SUBJECT TO THE CREDIT RISK OF THE ISSUER.

Potential Investors should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Issuer whereby the Investors may or may not recover all or part of the funds in case of default by the Issuer. Potential Investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

4.2 RISKS IN RELATION TO THE NON-CONVERTIBLE SECURITIES; THE SECONDARY MARKET FOR DEBENTURES MAY BE ILLIQUID; LIMITED OR SPORADIC TRADING OF NON-CONVERTIBLE SECURITIES OF THE ISSUER ON THE STOCK EXCHANGES.

The Debentures may be very illiquid, and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Potential Investors may have to hold the Debentures until redemption to realize any value.

However, as of date, we are not aware of any limited or sporadic trading of the non-convertible securities of the Issuer on stock exchanges and therefore, this would not be applicable.

4.3 CREDIT RISK & RATING DOWNGRADE RISK

In the event of deterioration in the financial health of the Issuer, there is a possibility that the relevant rating agency may downgrade the rating of the Debentures. In such cases, potential Investors may incur losses on revaluation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms.

4.4 CHANGES IN INTEREST RATES MAY AFFECT THE PRICE OF DEBENTURES.

All securities where a fixed rate of interest is offered, such as this Issue, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest

rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the pricing of the Debentures.

4.5 TAX CONSIDERATIONS AND LEGAL CONSIDERATIONS

Special tax considerations and legal considerations may apply to certain types of investors. Potential Investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

4.6 ACCOUNTING CONSIDERATIONS

Special accounting considerations may apply to certain types of taxpayers. Potential Investors are urged to consult with their own accounting advisors to determine implications of this investment.

4.7 RISKS IN RELATION TO THE SECURITY CREATED IN RELATION TO THE DEBT SECURITIES, IF ANY; SECURITY MAY BE INSUFFICIENT TO REDEEM THE DEBENTURES; RISKS IN RELATION TO MAINTENANCE OF SECURITY COVER OR FULL RECOVERY OF THE SECURITY IN CASE OF ENFORCEMENT

In the event that the Issuer is unable to meet its payment and other obligations towards Investors under the terms of the Debentures, the Debenture Trustee may enforce the security in respect of the Debentures as per the terms of security documents, and other related documents. The Debenture Holder(s)' recovery in relation to the Debentures will be subject to (i) the market value of such secured property, (ii) finding willing buyers for the transaction security at a price sufficient to repay the Debenture Holder(s)' amounts outstanding under the Debentures. The value realised from the enforcement of the transaction security may be insufficient to redeem the Debentures.

Fluctuations in the market values of the assets over which security has been provided in respect of loans provided by the Issuer could affect the Issuer's liquidity and reduce the Issuer's ability to enforce the security, which could adversely affect the Issuer's result of operations and financial condition. The Issuer may not accurately identify changes in the value of assets over which security has been provided caused by changes in market prices, and the Issuer's assessments, assumptions or estimates may prove inaccurate.

Further, while the Debentures are secured against a charge to the tune of at least 100% (one hundred percent) of the principal and interest amount in favour of the Debenture Trustee, and it is the duty of the Debenture Trustee to monitor that the security is maintained, however, the possibility of recovery of 100% (one hundred percent) of the amount shall depend on the market scenario prevalent at the time of enforcement of the security.

4.8 MATERIAL CHANGES IN REGULATIONS TO WHICH THE ISSUER IS SUBJECT COULD IMPAIR THE ISSUER'S ABILITY TO MEET PAYMENT OR OTHER OBLIGATIONS.

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

4.9 LEGALITY OF PURCHASE

Potential Investors in the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of their incorporation or the jurisdiction in which they operate or for compliance by that potential Investor with any law, regulation or regulatory policy applicable to it.

4.10 POLITICAL AND ECONOMIC RISK IN INDIA

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

4.11 RELIANCE ON UNAUDITED FINANCIAL INFORMATION

The relevant General Information Document and this Key Information Document may include certain unaudited financial information which has been subject to limited review, in relation to the Issuer, and the reliance on such information (if any) should, accordingly, be limited.

This Key Information Document includes audited standalone and consolidated financial statements in relation to the Issuer, for the Financial Year ended March 31, 2025, and Financial Results for the period ended June 30, 2025, provided elsewhere in this Key Information Document.

4.12 RISKS RELATED TO THE BUSINESS OF THE ISSUER

- (a) ***The Issuer provides both secured and unsecured loans to the clients and if the Issuer is unable to control the level of non-performing loans ("NPAs") in the future, or if the Issuer's loan loss reserves are insufficient to cover future loan losses, the financial condition and results of operations may be materially and adversely affected.***

The loans given to the clients of the Issuer are of the high-risk category to the extent they are unsecured. There is uncertainty on the client's ability to fulfil its loan obligations it can be difficult to verify all client details and assess the risk. Such non-performing or low credit quality loans can negatively impact the Issuer's results of operations.

The Issuer has various procedures and process controls in place to mitigate the risk.

The Issuer cannot assure that it will be able to effectively control and reduce the level of the NPAs of its client loans. The amount of its reported NPAs may increase in the future as a result of growth of client loans. If the Issuer is unable to manage NPAs or adequately recover its loans, the results of its operations will be adversely affected.

The current loan loss reserves of the Issuer may not be adequate to cover an increase in the amount of NPAs or any future deterioration in the overall credit quality of client loans. As a result, if the quality of its total loan portfolio deteriorates the Issuer may be required to increase its loan loss reserves, which will adversely affect its financial condition and results of operations.

The clients are from different industries spread across several geographies with limited access to finance and, as a result, might be vulnerable if economic conditions worsen or growth rates decelerate in India, or if there are natural disasters such as floods and droughts in areas where the Issuer's members live. Moreover, there is no precise method for predicting loan and credit losses, and the Issuer cannot assure that its monitoring, and risk management procedures will effectively predict such losses or that loan loss reserves will be sufficient to cover actual losses. If the Issuer is unable to control or reduce the level of its NPAs or poor credit quality loans, its financial condition and results of its operations could be materially and adversely affected.

- (b) ***Lending to small businesses poses unique risks not generally associated with other forms of lending in India, and, as a result, the Issuer may experience increased levels of NPAs and related provisions and write-off that negatively impact results of operations.***

Issuer's core business is to provide loans to Micro, Small and Medium Enterprise ("MSME") segments primarily in the urban and semi-urban areas. Any downturn in the area of activity by borrowers could adversely affect the ability of borrowers to make loan repayment on time and in turn negatively impact the Issuer's operation. Due to the precarious circumstances of borrowers and non-traditional lending practices the Issuer may, in the future experience increased level of non-performing loans and related provisions and write-offs that negatively impact its business and results of operations.

The Issuer has separated sales from credit risk department. This helps in better credit evaluation of the customer. A credit enhancement happens by the way of hypothecation of stocks/machineries and/or mortgage of immovable property. The ability to repay the loan is taken care of by the internal credit evaluation and intention to repay is taken care of by the collaterals obtained.

- (c) ***The Issuer is exposed to certain political, regulatory and concentration of risks***

Due to the nature of its operations, the Issuer is exposed to political, regulatory and concentration risks. The Issuer believes a mitigant to this is to expand its geographical reach and may consequently expand its operations other states. If it is not effectively able to manage such operations and expansion, it may lose money invested in such expansion, which could adversely affect its business and results of operations.

- (d) ***The Issuer's business and results of operations would be adversely affected by strikes, work stoppages or increased wage demands by employees***

Large scale attrition, especially at the senior management level, can make it difficult for the Issuer to manage its business.

If the Issuer is not able to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain the Issuer's quality and reputation, it will be difficult for the Issuer to manage its business and growth. The Issuer depends on the services of its executive officers and key employees for its continued operations and growth. In particular, the Issuer's senior management has significant experience in the microfinance, banking and financial services industries. The loss of any of the Issuer's executive officers, key employees or senior managers could negatively affect its ability to execute its business strategy, including its ability to manage its rapid growth. The Issuer's business is also dependent on its team of personnel who directly manage its relationships with its members. The Issuer's business and profits would suffer adversely if a substantial number of such personnel left the Issuer or became ineffective in servicing its members over a period of time. The Issuer's future success will depend in large part on its ability to identify, attract and retain highly skilled managerial and other personnel. Competition for individuals with such specialized knowledge and experience is intense in this industry, and the Issuer may be unable to attract, motivate, integrate or retain qualified personnel at levels of experience that are necessary to maintain its quality and reputation or to sustain or expand its operations. The loss of the services of such personnel or the inability to identify, attract and retain qualified personnel in the future would make it difficult for the Issuer to manage its business and growth and to meet key objectives.

The employees are not currently unionized. However, there can be no assurance that they will not unionize in the future. If the employees unionize, it may become difficult to maintain flexible labour policies, and could result in high labour costs, which would adversely affect the Issuer's business and results of operations.

- (e) ***The Issuer's insurance coverage may not adequately protect it against losses. Successful claims that exceed its insurance coverage could harm the Issuer's results of operations and diminish its financial position***

The Issuer maintains insurance coverage of the type and in the amounts that it believes are commensurate with its operations and other general liability insurances. The Issuer's insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage.

In addition, there are various types of risks and losses for which the Issuer does not maintain insurance, such as losses due to business interruption and natural disasters, because they are either uninsurable or because insurance is not available to the Issuer on acceptable terms. A successful assertion of one or more large claims against the Issuer that exceeds its available insurance coverage or results in changes in its insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect the Issuer's business, financial condition and results of operations.

(f) ***The Issuer requires certain statutory and regulatory approvals for conducting its business and the failure to obtain or retain them in a timely manner, or at all, may adversely affect operations***

NBFCs in India are subject to strict regulation and supervision by the RBI. Pursuant to guidelines issued by the RBI, the Issuer is required to maintain its status as a NBFC. The Issuer requires certain approvals, licenses, registrations and permissions for operating its business, including registration with the RBI as a NBFC-ND. Further, such approvals, licenses, registrations and permissions must be maintained/renewed over time, applicable requirements may change, and the Issuer may not be aware of or comply with all requirements all of the time. In particular, the Issuer is required to obtain a certificate of registration for carrying on business as a NBFC-ND that is subject to numerous conditions.

(g) ***Competition from banks and financial institutions, as well as state-sponsored programs, may adversely affect the Issuer's profitability and position in the Indian NBFC lending industry***

The Issuer faces most significant competition from other NBFCs and banks in India. Many of the institutions with which Issuer competes can have greater assets and better access to, and lower cost of, funding than the issuer. In certain areas, they may also have better name recognition and larger member bases than Issuer. Issuer anticipates that it may encounter greater competition as they continue expanding the operations in India, which may result in an adverse effect on the business, results of operations and financial condition.

(h) ***Risk considerations in respect of Environmental, Social and Governance ("ESG") risks***

The Issuer may face certain risks in respect of ESG related aspects that could impact the Issuer's financial stability/condition, operations, and reputation. The Issuer's believes that managing risks in respect of ESG is crucial for the Issuer's long-term resilience and alignment with evolving industry practices. Any environmental risks shall include environment-related regulatory changes and climate-related disruptions. Social risks may arise from negligence and/or non-compliance related to labor practices, human rights, health and safety, responsible lending, etc. which may lead to reputational and legal consequences. Governance risks include weak risk management, lack of transparency and regulatory scrutiny, etc. which could affect investor confidence and capital access for the Issuer.

4.13 TRADING OF THE NCDS MAY BE LIMITED BY TEMPORARY EXCHANGE CLOSURES, BROKER DEFAULTS, SETTLEMENT DELAYS, STRIKES BY BROKERAGE FIRM EMPLOYEES AND DISPUTES.

The Indian stock exchanges have experienced temporary exchange closures, broker defaults, settlement delays and strikes by brokerage firm employees. In addition, the governing bodies of the Indian stock exchanges have from time to time imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Furthermore, from time to time, disputes have occurred between listed companies and stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment.

4.14 REFUSAL OF LISTING OF ANY SECURITY OF THE ISSUER DURING PRECEDING THREE FINANCIAL YEARS AND CURRENT FINANCIAL YEAR BY ANY OF THE STOCK EXCHANGES IN INDIA OR ABROAD

As on the date of this Key Information Document, no stock exchange in India or abroad has refused listing of any equity or debt security issued by the Issuer.

4.15 IN CASE OF OUTSTANDING DEBT INSTRUMENTS OR DEPOSITS OR BORROWINGS:

ANY DEFAULT IN COMPLIANCE WITH THE MATERIAL COVENANTS SUCH AS CREATION OF SECURITY AS PER TERMS AGREED: As on the date of this Key Information Document, the Issuer has not committed any default in compliance with the material covenants such as creation of security as per terms agreed in respect of any outstanding borrowings.

DEFAULT IN PAYMENT OF INTEREST: As on the date of this Key Information Document, the Issuer has not committed any default in payment of interest in respect of any outstanding borrowings.

DEFAULT IN REDEMPTION OR REPAYMENT: As on the date of this Key Information Document, the Issuer has not committed any default in redemption or repayment in respect of any outstanding borrowings.

NON-CREATION OF DEBENTURE REDEMPTION RESERVE: Pursuant to the Companies (Share Capital and Debentures) Rules, 2014, a non-banking financial company is not required to maintain debenture redemption reserve for debentures issued on a private placement basis.

DEFAULT IN PAYMENT OF PENAL INTEREST WHEREVER APPLICABLE: As on the date of this Key Information Document, the Issuer has not committed any default in payment of interest penal in respect of any outstanding borrowings.

OTHERS: A failure to observe the covenants under the Issuer's financing arrangements or to obtain necessary consents required thereunder may lead to the termination of the Issuer's credit facilities, acceleration of all amounts due under such facilities and the enforcement of any security provided. Any acceleration of amounts due under such facilities may also trigger cross default provisions under the Issuer's other financing agreements. If the obligations under any of the Issuer's financing documents are accelerated, the Issuer may have to dedicate a substantial portion of the Issuer's cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for the Issuer's working capital requirements and other general corporate purposes. Further, during any period in which the Issuer is in default, the Issuer may be unable to raise, or face difficulties raising, further financing. Any of these circumstances could adversely affect the Issuer's business, credit rating and financial condition, cash flows and results of operations. If the Issuer fails to meet its debt service obligations or covenants provided under the financing agreements, the relevant lenders could declare the Issuer to be in default under the terms of the Issuer's agreements or accelerate the maturity of the Issuer's obligations. the Issuer cannot assure the Investors that, in the event of any such acceleration, the Issuer will have sufficient resources to repay the borrowings.

4.16 ALL COVENANTS INCLUDING THE ACCELERATED PAYMENT COVENANTS GIVEN BY WAY OF SIDE LETTERS SHALL BE INCORPORATED IN THE ISSUE DOCUMENT BY THE ISSUER

The Issuer has no side letter with any debt securities holder except the one(s) disclosed in the relevant General Information Document and this Key Disclosure Document.

4.17 PROPOSED GROUP RE-ORGANISATION

The Issuer and certain affiliates/group companies and other entities are in the midst of a corporate re-organization of the Vivriti group, wherein the board of directors of the Issuer have approved the Scheme. The Scheme is available at <https://www.vivriticapital.com/vivriti-group-scheme-ofrestructuring.html>.

The Scheme shall be effective from the "Appointed Date"/ "Effective Date" (as defined in the Scheme), to be determined in the manner provided in Part VII of the Scheme. Once the Scheme is effective, amongst others, business, activities and operations of the Issuer pertaining to the Issuer's non-banking finance company related business will be transferred to Hari and Company Investments Madras Private Limited ("**HCIMPL**").

Therefore, pursuant to the terms of the Scheme, all present, contingent and future liabilities of the Issuer relating to the Issuer's non-banking finance company related business would also be transferred to HCIMPL, and all such liabilities (including the Debentures) would become the liabilities of HCIMPL.

If the Scheme is made effective prior to the Final Settlement Date, the Secured Obligations would be discharged by HCIMPL (and not Vivriti Capital Limited). Potential Investors would need to assess the possibility of the Secured Obligations being discharged by an entity (other than Vivriti Capital Limited).

4.18 LACK OF LIQUIDITY FOR NCDs

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market for listed debt securities, (iii) general economic conditions, and, (iv) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid. The platforms offering NCDs for further trade in the secondary market for liquidity may or may not be a registered platform. Trading through unregistered platforms may result in statutory non-compliances and thereby triggering penal actions.

Furthermore, the Investors are requested to note that this Key Information Document is issued in compliance with the provisions of Section 42 of the Companies Act, 2013 and applicable SEBI regulations. The Issuer does not purport to undertake any issuance under the meaning of Section 25 of the Companies Act, 2013, / Deemed Public Issuance. The Investors who are subscribing to this issuance / who are in possession of the NCDs issued vide this KID during the tenor of the instrument are requested to be mindful of the compliances stemming from applicable regulations. The Issuer bears no responsibility for the secondary market trades as the NCDs are listed and freely tradable.

4.19 REGULATORY RISKS:

The Issuer, being a Non-Banking Financial Institution ("**NBFC**") is subject to RBI's guidelines on financial regulation of NBFCs. Further, the Issuer is also listed on BSE Limited and is a High Value Debt Listed Entity to which Chapter VA (*Corporate Governance Norms for a Listed Entity which has Listed its Non-Convertible Debt Securities*) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 is applicable. The Issuer has 1 (one) subsidiary and 1 (associate) entity. The aforementioned associate entity has further step-down subsidiaries. The Issuer, including its subsidiary / associate entities, are subject to various statutory and regulatory permissions for operating their respective business. Any non-compliance by any of the aforementioned entities may trigger regulatory actions undertaken by the any governmental authority and accordingly present a compliance risk. The compliance risk of the Issuer / its subsidiary / its associate entity including their respective step-down subsidiary if any, may affect the position and performance of the Issuer. The trading price of the NCDs may be adversely affected due to the aforesaid reasons.

ANNEXURE XII: SPECIFIC DISCLOSURES REQUIRED FROM NBFCs

1. Details with regard to the lending done by the Issuer out of the issue proceeds of debt securities in last three years, including details regarding the following:

1.1 Lending policy: Should contain overview of origination, risk management, monitoring and collections:

Loan origination: The Issuer employs comprehensive appraisal mechanisms for each type of loan depending on the product involved. Client onboarding process comprises desk diligence and due diligence. At desk diligence stage a preliminary view of the entity is captured in the report. Final version of the report is circulated after desk diligence.

Any new customer / borrower would be subject to a rigorous credit appraisal process before it is recommended for Onboarding. Business, Credit, Risk or any other functionary / department that is recommending Onboarding would follow the below broad guidelines in assessing the needs and profile of the customer irrespective of the nature of the credit facility.

Ongoing credit review of a client is independent of transaction review. All onboarded clients are reviewed as per the risk monitoring matrix detailed in the Risk Management Policy.

Risk Management: The Primary source of repayment is expected to be the positive cash flows generated by the customer's business. However, in case of several customers (such as start-ups that are in initial growth) where cashflow is not positive, Secondary source of repayment should be considered which would include inter alia exclusive security, escrow arrangement, liquidation / sale of assets, guarantor/parent support, net worth of directors / promoters, equity infusion, refinancing, financial flexibility etc. These should be clearly identified as part of the appraisal process while presentation to Approving Authority. Credit appraisal process discourages credit extension to such customers where there is no identified source of repayment / way out.

Management Risk: Appraisal of management is considered the touchstone of the credit analysis. It is crucial to assess both the ability and the willingness of the management to ensure that financial obligations are met fully. The factors such as experience, reputation, depth of management, financial flexibility etc. are to be evaluated to form an opinion on the borrowing entity's management.

Industry and Business Risk: This relates to the industry of which the borrower is a constituent. The firm will be subject to the risk factors to which the industry is exposed. In assessing the Industry risk, the key parameters would be competition, entry & exit barriers, cyclicality, outlook, regulatory risk/ government policies and other contemporary issues.

Business risk arises in case a firm cannot achieve its targeted business performance. Factors could be external and related to the Industry the firm operates in such as dependence of business cycle on economy, vulnerability of business to technological changes and regulatory environment, implication of growing competition, etc are evaluated for business risk analysis.

Factors could also be internal to the firm such as product life cycle, market share, diversity of customer base, long term sales contracts, research and development commitment, distribution, network, technology and business efficiency etc.

Financial Risk: This would include an assessment of the borrower's overall financial strength based on performance and financial indicators, as derived from its financial statements - historical and projected. While assessing the overall financial strength of a company, the ratios and future prospects would be considered. A comparison of such ratios with other industry participants shall also be done as part of market position / peer analysis.

Governance Risk: Governance, or corporate governance, refers to the ethical management of an organization by its leaders. Good governance takes the needs and expectations of all stakeholders into account i.e. promoters, senior executives, employees, customers, suppliers, lenders, and investors. Effectiveness of governance may be evaluated by understanding a company's policies, processes, management hierarchy, control systems accountability, etc that ensure a functional system of checks & balances to protect the organization's long-term interests

While governance constitutes a part of management & financial risks, Governance Risk requires special discussion for family run businesses, groups with complicated holding structure, groups with multiple related party transactions, and borrowers rated sub-investment-grade (i.e. BB+ or below). Governance is a key diligence metric which and can potentially negate the strengths observed in other risk areas. Any negative observation should be specifically investigated and highlighted to the Approving Authority.

Regulatory Risk: Regulatory risk refers to the possibility that a change in regulations or legislation may increase costs of operations, introduce legal and administrative hurdles, and sometimes even restrict a company from doing business. Such changes may impact the issuer as a lender by way of affecting a borrower's business continuity and/or enforcement of security pertaining to a loan.

All companies must abide by regulations set by governing bodies, and regulatory risk is generally covered as part of Industry & Business Risk analysis.

Environmental and Social Risk: Diligence must encompass assessment of Environmental & Social Risk associated with a company's operations. While the framework for the same is being evolved, for now a declaration from the client is mandated for initial Onboarding. Such declaration includes company's compliance with various parameters identified as part of ESG framework.

Monitoring: Apart from standard covenant stipulated in the sanctioning of loan, the underwriting team (Credit / Risk) shall consider adding specific terms and conditions on case-to-case basis depending on the risk profile and market-wide best practices followed. The Credit policy covers the general covenants that can be stipulated to protect Issuer's interests and the same have to be approved by the Approving Authority.

Quarterly Reviews would be used to track company's performance against projections. Performance, status of compliance with covenants, and other key updates are to be tracked on a quarterly basis. Credit / Risk team shall update relevant sections of the Credit Information Report as part of the Quarterly Review process. These should contain the updates on conduct of account, financial performance, covenant compliance, change in borrowing arrangement, capital infusion, project status (in case of ongoing projects), and other such updates that may be relevant to be monitored on an ongoing basis. Quarterly Review formats depending on customer & product segments have been separately advised as part of "Credit Process – Operating Guidelines". Further, CCO & CRO shall be jointly authorized to change the frequency of monitoring required & Limit Validity (upto 45 calendar day grace period from abovementioned cut-off dates) for accounts on either aggregate risk classification or case-to-case basis.

Collections and Recovery:

VCL shall directly or through the partners can engage in the overdue/recovery process. When engaging through the partners

- the policy on code of conduct for recovery and re-possession of the assets would be followed by the partners.
- To achieve above objective, whenever partner is onboarded the partner shall be made

- aware of the policy
- As part of the monitoring process, instances where such code of conduct not followed, will be highlighted and necessary course correction plan will be undertaken.
