In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security.

The manner of India Ratings factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in India where the rated security is offered and sold, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and

its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. Individuals identified in an India Ratings report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security or any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. Investors may find India Ratings ratings to be important information, and India Ratings notes that you are responsible for communicating the contents of this letter, and any changes with respect to the rating, to investors.

It will be important that you promptly provide us with all information that may be material to the ratings so that our ratings continue to be appropriate. Ratings may be raised, lowered, withdrawn, or placed on Rating Watch due to changes in, additions to, accuracy of or the inadequacy of information or for any other reason India Ratings deems sufficient.

Nothing in this letter is intended to or should be construed as creating a fiduciary relationship between India Ratings and you or between India Ratings and any user of the ratings.

In this letter, "India Ratings" means India Ratings & Research Pvt. Ltd. and any successor in interest.

We are pleased to have had the opportunity to be of service to you. If we can be of further assistance, please email us at infogrp@indiaratings.co.in

Analytical Approach

Ind-Ra continues to take a standalone view of KFL to arrive at the ratings.

Detailed Rationale of the Rating Action

The upgrade reflects Ind-Ra's expectation of continued growth in the company's operations over the medium term, driven by adequate internal accruals. The upgrade also reflects KFL's consistent profitability, enhanced operational efficiency evident from the rise in assets under management (AUM) per branch, strong asset quality, controlled credit costs, and a more diversified funding profile with an increasing share of bank borrowings.

The ratings are also supported by the company's expanding franchise, with AUM surpassing INR56,000 million and a growing presence in southern geographies. KFL has been able to maintain a stable asset quality through challenging periods such as the COVID-19 pandemic and demonetisation.

However, the ratings remain constrained by the company's geographical concentration risk.

List of Key Rating Drivers

Strengths

- Sizeable scale of franchisee; maintained runaway growth
- Stable asset quality
- Improved funding profile
- Stable profitability metrics

Weaknesses

- Expanding footprint beyond southern states amid regional concentration

Detailed Description of Key Rating Drivers

Sizeable Scale of Franchisee; Maintained Runaway Growth: KFL has established a sizeable scale in the gold loan business, backed by over three decades of operating experience. The company has successfully navigated multiple business cycles, including periods of significant volatility in gold loan prices. Its franchise continues to expand, particularly in southern India, which accounts about 97% of its assets under management (AUM) as of March 2025, along with making gradual inroads into non-southern markets. Its AUM increased to INR56.8 billion in FY25 (FY24: INR53.10 billion, FY23: INR48.4 billion) with AUM per branch increasing to INR58.58 million (INR53.8 million, INR49 million) underscoring operational efficiency. KFL's capital position remains healthy, supported by a INR500 million rights issue in FY24, which helped boost its tier 1 capital ratio to 17.39% in FY25 (FY24: 16%; FY23: 14.6%). The company had a leverage of 5.0x in FY25. The company had a steady branch network of 971 branches as of FY25, and has plans underway to expand further in FY26, focusing on both core southern markets and select high-potential regions outside south.

Stable Asset Quality: The gross non-performing assets (GNPAs) declined to 1.0% in FY25 (FY24: 1.20%; FY23: 0.42%; FY22: 0.66%; FY21: 0.47%; FY20: 0.47%) as the company was able to auction its gold. The company had displayed considerable resilience during COVID-19 disruptions and reported a modest GNPA of 0.66% in FY22. Although the borrower class is vulnerable, the ultimate credit loss is limited due to the capping of the loan-to-value at 75%, as per regulatory requirements, at the time of disbursements and the liquid nature of the collateral. Being in the gold loan business, KFL's credit cost has always been modest and less volatile through the loan cycle, leading to better operating profit buffers. KFL maintains a risk filter, wherein a resolution is initiated as soon as the account goes overdue, leading to notice to the borrower. In case of a delay in repayment, it conducts auctions. The company auctioned gold worth INR637 million from April 2024 to March 2025. KFL did not post any losses in auctions and was able to recover the entire outstanding principal and interest amount. The agency believes maintaining of adequate loan-to-value buffers, and timely auctions and recoveries will be critical for KFL to sustain its stable asset quality.

Improved Funding Profile: KFL has strengthened its banking relationships since FY21, with the number of banks and financial institutions providing funding increasing to 39 as of March 2025 from 12 in 2021. The company has successfully diversified its lender base, securing funding from both public and private sector banks while increasing the percentage of bank borrowings to 47% in FY25 (FY24: 43%; FY23: 37%) with NCD and subordinated debt having 53% share (57%, 58%). This is also reflected in the cost of borrowing which remained stable at 10.5% (10.6%; 10.23%). While this shift indicates improving funding diversification, a sustained and meaningful increase in bank exposure over the medium term will remain a key monitorable.

Stable Profitability Metrics: KFL has consistently delivered profitability with profit after tax rising to INR 1,270 million in FY25 from INR800 million in FY22, supported by a return on assets (ROA) of 2.06% in FY25 (FY24: 1.9%; FY23: 1.87%). This performance has been aided by a stable cost of borrowing (FY25: 10.5%; FY24: 10.6%), and a controlled operating expense ratio of 3% relative to AUM (FY24: 3.2%; FY23: 3.5%). The yield on assets remained steady at 16.3% over FY24-FY25 (4QFY25 yield: 17.59%). Operating efficiency has been further supported by prior investments in technology, which have helped keep costs low and improve productivity. This is reflected in the increase in AUM per branch to INR58.58 million in FY25 (FY24: INR53.8 million; FY23: INR49 million). Credit costs have remained minimal at 0.1% in FY25 (FY24: 0.20%), owing to the company's focus on gold loans, which has lower risk.

The agency notes that the sustainability of KFL's profitability will hinge on its ability to enhance productivity, preserve margins, and maintain tight control over credit costs.

Expanding Footprint Beyond Southern States Amid Regional Concentration: KFL's portfolio is concentrated in southern India, with Tamil Nadu constituting around 59% of the gold loan portfolio at FYE25 (FYE24: 56%, FYE23: 54%; FYE22: 56%; FYE21: 53%; FYE20: 52%). Tamil Nadu, Kerala, Karnataka, Andhra Pradesh and Telangana accounted for around 97% of the gold loan portfolio at FYE25, as against AUM of 99% from southern India in FY24. As per the company's strategy, the portfolio is likely to remain concentrated in south India over the medium term. Also, on the funding side, the funds mobilised through the NCD route remained geographically concentrated, as a major portion is being raised from Kerala.

Liquidity

Adequate: As per KFL's FY25 asset-liability statement, the company had a matched asset-liability profile with a cumulative surplus in all-time buckets of up to one year. The average asset tenor was nine-to-12 months, and the average liability tenor was around 36 months at FYE25. This, along with the highly liquid nature of gold, helps KFL maintain a matched liquidity profile.

Rating Sensitivities

Positive: A positive rating action could result from significant and sustained profitable growth in the franchise, supported by the maintenance of adequate capital buffers, broader geographical presence, continued improvements in operational efficiency while deepening the management bandwidth.

Negative: Any sharp rise in delinquency, which could restrict capital and funding buffers, adverse regulatory developments that could impair the ability of the company to conduct its business and the leverage exceeding 6.0x on a sustained basis, could lead to a negative rating action.
