Rationale

The rating factors in Muthoot MCred Limited's (MMCL) established brand – Mini Muthoottu, and the long track record of the promoters and the company in the gold loan business. The Group has been operating in this segment for more than six decades. The rating also takes into consideration MMCL's comfortable asset quality and steadily improving earnings profile over the years.

MMCL has a moderate scale of operations, with 973 branches and a loan portfolio of Rs. 4,773.5 crore as of September 2025 vis-à-vis 948 branches and loan portfolio outstanding of Rs. 4,141.6 crore as of March 2025. Its operations are geographically concentrated, with South India contributing 95% to the loan portfolio as of September 2025. Over the years, MMCL's asset quality performance has remained healthy, with limited credit costs in the gold loan segment. As of September 2025, the entire gold portfolio had a loan-to-value (LTV) ratio of less than 75%, providing adequate security cover to the loan portfolio. Moreover, the company has been gradually shifting to a smaller-ticket (84.0% of the gold loan portfolio comprised loans with a ticket size of less than Rs. 3 lakh) and higher-yielding loan portfolio over the last two years. ICRA expects the same to continue, supporting a gradual improvement in the margins and earnings profile over the medium term.

ICRA takes note of the new directions for gold loans, which look to harmonise the regulatory framework, address concerns relating to the lending practices that are being followed and strengthen the conduct-related aspects of various lenders. Lenders are expected to make several operational changes in the near term to comply with these directions, which become effective from April 2026. While the final directions are relatively relaxed vis-à-vis the draft proposal, some impact on the business of the lenders is expected in the near term along with higher competitive pressure, which will remain monitorable.

MMCL's gearing stood at 5.4x as of September 2025 and 5.1x as of March 2025 (5.1x as of March 2024). In the past few years, portfolio growth was largely supported by internal accruals. The company has raised Rs. 114.9 crore of capital in YTD FY2026, with an additional Rs. 75 crore planned for infusion before March 2026. While MMCL's capitalisation is sufficient to meet its near-term growth requirements, it would require a further capital raise to maintain its medium-term growth at the envisaged level. ICRA expects the company to maintain its leverage below 6x over the medium term.

The Stable outlook reflects ICRA's expectation that MMCL's credit profile would continue to be supported in the near term by the steady asset quality performance and improving earnings profile.

Key rating drivers and their description

Credit strengths

Long track record of operations – The Muthoottu Group has a track record of more than six decades in the gold loan business. MMCL, the flagship company of the Group, was established in 1998. As such, the promoters have a long-standing track record in the business. The senior management is also experienced and handles the day-to-day operations of the company. The loan portfolio stood at Rs. 4,773.5 crore as of September 2025, with gold loans and microfinance comprising 93.2% and 6.8%, respectively. As of September 2025, the company had a pan-India network of 973 branches, spread across 12 states/Union Territories (UTs). MMCL's strong brand value and its experienced promoters and senior management team are expected to support business growth as it targets a compound annual growth rate (CAGR) of 25% over the next 3-4 years.

Comfortable asset quality – MMCL's asset quality has remained comfortable over the last few years; its gross stage 3 was at a healthy level of 0.8% as of September 2025. The company's gold loan portfolio mainly consists of loans with tenors of 6-9 months. It carries out the auction of pledged gold after following due process if the borrowers fail to repay the loans. Given the liquid nature of gold as security, MMCL has faced limited credit losses in its gold loan segment in the past. ICRA notes that the company has adequate mechanisms for marking-to-market the value of the jewellery, in line with gold price fluctuations, providing sufficient security cover for its loan portfolio. MMCL's auction recoveries ranged between 95% and 105% in the past four years.

The company's overall 90+ days past due (dpd) stood at 0.8% as of September 2025. The 90+ dpd in the gold loan segment decline to 0.4% as of September 2025 from 0.5% as of March 2025 as MMCL has extended the auction period, based on requests from customers, wherever the LTV is comfortable. The microfinance segment was impacted in the current fiscal, in line with overall sectoral performance trends. The 90+ dpd in this segment increased to 5.2% as of September 2025 from 4.7% as of March 2025. The company wrote off Rs. 0.71 crore in H1 FY2026. While the near-term performance of the microfinance segment would be monitorable, MMCL's overall asset quality would not be significantly impacted, given the small share of this segment in its total portfolio.

Adequate capitalisation profile – MMCL's leverage has remained range-bound over the last few years; its gearing stood at 5.4x as of September 2025 (5.1x as of March 2025) vis-à-vis 5.1x as of March 2024 with internal accruals largely supporting portfolio growth. Its capital adequacy ratio was adequate at 19.7% as of September 2025 (Tier I capital of 15.3%) vis-à-vis 21.4% as of March 2025 (Tier I capital of 16.1%) and 23.9% as of March 2024 (Tier I capital of 16.9%). ICRA notes that sizeable fixed assets have been deployed in land and office buildings (Rs. 209.0 crore; 3.7% as of September 2025). MMCL receives rental income from leased out portions of its head office building. ICRA also notes that the company provides considerable cash collateral for its borrowings in addition to securities in the form of personal guarantees from promoters and other assets, including loan receivables, fixed assets, etc. As of December 2025, the cash collateral for its borrowings stood at Rs. 434.5 crore (6.8% of the total assets). The company envisages to expand its portfolio by around 45% in FY2026 and plans to expand it at an estimated CAGR of 20% in subsequent years.

While MMCL's capitalisation is adequate for its near-term growth requirements, it would need a further capital raise to achieve its medium-term growth target. The company has raised Rs. 76 crore through compulsorily convertible preference shares (CCPS) in December 2025 and Rs. 38.9 crore in January 2026. It is also in discussions with potential investors for an additional capital raise in Q4 FY2026. ICRA expects MMCL to maintain its managed gearing below 6x over the next three years.

Steadily improving earnings performance with further scope for improvement – MMCL's net profitability has been increasing over the past four years, with its profit after tax/average managed assets (PAT/AMA) improving to 2.0% in FY2025 and 2.3% in H1 FY2026 from 1.6% in FY2022. This was supported by the steady expansion of the interest margins as the company has increasingly reduced its share of low-ticket gold loans. Operating expenses, as a proportion of AMA, also declined to 5.8% in H1 FY2026 from 5.9% in FY2025 (5.1% in FY2024) with MMCL focussing on steadily expanding its operating infrastructure.

Credit costs remained under control, given the limited credit risk in the gold loan segment. Nevertheless, ICRA expects credit costs to remain under control going forward, given the small share of the microfinance segment in MMCL’s portfolio. Going forward, there is further scope for improvement in MMCL’s net profitability with enhanced operating efficiency. The company’s gold assets under management (AUM) per gold branch stood at Rs. 4.9 crore as of September 2025 (Rs. 4.0 crore in March 2025), suggesting scope for improvement in the operating efficiency.

Credit challenges

Moderate scale; highly competitive gold loan business – The company’s portfolio increased by 17.6% in FY2025 vis-à-vis 8.0% in FY2024; on a year-on-year (YoY) basis, it expanded by 30.5% in H1 FY2026 (Rs. 3,658.9 crore as of September 2024). The slower growth in the recent past was due to the shift in MMCL’s focus towards lower-ticket loans. However, in the current fiscal, growth has picked up well on the back of the strong upward movement in gold prices. MMCL’s loan portfolio stood at Rs. 4,773.5 crore as of September 2025 and is anticipated to reach about Rs. 6,000.0 crore by March 2026. While the gold loan segment is the predominant focus of the company, it has a small presence in the microfinance and loan against property (LAP) segments, though operations in these segments are restricted to Kerala. On a steady-state basis, MMCL intends to limit its exposure to the microfinance segment to less than 10% of its loan portfolio, going forward.

As of September 2025, MMCL had a network of 973 branches spread across 12 states/UTs. The company expects to open 30-50 branches annually over the next few years, which would support the scale-up of its operations. However, ICRA notes that the gold loan segment is highly competitive with the presence of many well-established non-banking financial companies (NBFCs). Further, the segment is witnessing increasing focus from banks as well as many large NBFCs, which are expanding their presence.

Geographically concentrated operations – MMCL’s portfolio is significantly concentrated in southern India. As of September 2025, Tamil Nadu was the top contributing state with a 32.2% share in the total portfolio. South India (Tamil Nadu, Kerala, Karnataka, Andhra Pradesh and Telangana) contributed 95.7% to the portfolio. Going forward, the company is expected to steadily expand its presence in North and West India. However, the ramp-up of the portfolio in these locations would be gradual over the medium term.

Liquidity position: Adequate

As on December 31, 2025, the company was carrying unencumbered on-book liquidity of Rs. 211.3 crore and unutilised bank lines of Rs. 200.0 crore. It has scheduled debt obligations of Rs. 723.7 crore from January 2026 till March 2026. With sizeable monthly average collections of about Rs. 700 crore from the borrowers, the liquidity position is expected to be adequate. As of December 2025, MMCL had positive asset-liability maturity (ALM) mismatches for a 1-year period.

Rating sensitivities

Positive factors – The sustained scale-up of operations and an improvement in the earnings profile would positively impact MMCL’s credit profile. A significant improvement in the capitalisation profile would also positively impact the rating.

Negative factors – Pressure on the rating could arise in case of a sustained weakening in the company’s asset quality performance or earnings profile (return on managed assets (RoMA) of less than 1.5%). Continued increase in the managed gearing beyond 6x would also negatively impact the rating.

Dear Madam,

Re: ICRA's Credit Rating for below mentioned instruments of Muthoot MCred Limited (erstwhile Muthoottu Mini Financiers Limited)

Please refer to your email dated March 04, 2026, requesting ICRA Limited to revalidate the rating letter issued for the below mentioned instruments.

We confirm that the following ratings of the instruments rated by ICRA and last communicated to you vide our letter dated February 13, 2026, stands valid.

Instrument	Rated Amount (Rs. crore)	Rating ¹
Non-Convertible Debentures	2,300.00	[ICRA]A (Stable)
Total	2,300.00	

The other terms and conditions for the rating of the aforementioned instrument shall remain the same as communicated vide our letter Ref: ICRA/ Muthoot MCred Limited /13022026/01 dated February 13, 2026

The Rating(s), as aforesaid, must be understood solely as an opinion and should not be treated as a recommendation to buy, sell or hold long term debt/non-convertible debenture to be issued by your company.

In line with SEBI Circular No. SEBI/HO/DDHS/DDHS-PoD-3/P/CIR/2024/160 dated November 18, 2024, issuers are encouraged to utilize the penny-drop verification service as provided by banks. This measure is intended to prevent payment failures when disbursing principal and/or interest to respective investors or debenture holders.

Penny-drop verification serves as an efficient method for confirming the bank account details of persons designated to receive payments. Once an account has been verified through this facility, it can be used for subsequent transactions related to interest and principal payments, thereby ensuring successful remittance and avoiding failure.

We look forward to further strengthening our existing relationship and assure you of our best services.

With kind regards,
Yours sincerely,
For ICRA Limited

ANNEXURE XII - LENDING POLICY

(as attached separately)

LOAN POLICY

Approved by the Board of Directors in their meeting held on 21-03-2025

1. Preface

This paper has been drawn by way of consolidation, updation and additions to our existing lending norms with a view to present a comprehensive policy document for favour of the Board's approval. The policy seeks to maintain consistent improvement in asset quality, improvement in net interest margins and operational efficiency particularly in the areas of compliances and risk management.

2. Regulatory regime

As a Non-Banking Financial services company registered under the Reserve Bank of India Act, our lending policy is guided by the directives and guidelines issued by The Reserve Bank of India from time to time. As such, this policy document is subject to review based on periodic changes in regulatory norms.

1. Single / Group Exposure norms - Lending to any single borrower will not exceed 15% of Tier 1 Capital and to any single group of borrowers not to exceed 25% of Tier 1 Capital and the overall exposure norms shall be as prescribed by RBI.
2. Maintain a Capital to risk weighted asset ratio of 15%.
3. Prudential lending norms - Asset classification, provisioning requirements as per RBI Prudential norms.
4. Fixation of maximum loan per gram based on the Loan to Value (LTV) guidelines of RBI
5. Compliance with Anti money laundering / countering financing of Terrorist Activities as elucidated in our Anti Money Laundering (AML) policy

3. Risk management

We have a zero-tolerance policy on risk. The different tiers of control already implemented, begins at the branch level. Regional Managers, Audit Managers and Vigilance Managers have a clear job role to enforce routine check on enforcement of quality assurance measures. CO functionaries will also undertake random check on related issues, whenever they visit the branches.

The Risk Management Committee, of the Board, is entrusted with the task of identification, measurement, monitoring and mitigation of the risk factors on an ongoing basis.

As a part of our ongoing risk mitigation initiatives, the Company has implemented rating matrix system to assess vulnerability at branch as well as at corporate office levels. This rating exercise will be a part of periodic audits.

Notwithstanding, given the short-term nature of our Loan assets cushioned well by net interest margins, the secured nature of business, vulnerability to credit, operational as well as market risks is limited.

4. Resources

Our funding needs are presently sourced out of debentures and also partly through working capital facilities from Banks. Reckoning our ambitious growth plans, steps have been initiated to source additional banking facilities, in addition to periodical issue of non-convertible debentures.

As a part of our initiative to raise cheaper source of funds and also to draw parity with our assets maturity profile, alternative short-term sources of funding would also be added to the resources.

5. Loan Pricing policy

The interest rates on gold loans will be fixed by the company on the basis of the following internal valuations.

1. The company lends varying amounts per gram of the gold (LTV) depending upon the market value and the purity of the gold. As per the risk assessment of the company a higher LTV is riskier than a lower LTV. Accordingly, lower LTV attracts lower rate of interest and higher LTV attracts higher interest rate. Further, in case of schemes where the interest rate varies with tenor of the loan, the borrower can remit the monthly interest alone and continue to enjoy the loan at lower interest rate.
2. In terms of RBI guidelines, maximum LTV rate that can be fixed should not exceed 30day average of the closing rate for standard gold (22k) fixed by India Bullion and Jewellery Association.
3. No allowance has been provided for add-ons such as making charge, sales tax, etc.
4. The maximum permissible LTV (Loan-to-Value) of the pledged ornaments will, however, be within the ceilings stipulated by RBI from time-to-time (The maximum permissible LTV is 75% at present). The company will maintain a Loan-to-Value (LTV) Ratio not exceeding 75 percent for loans granted against the collateral of gold jewellery throughout the tenor of loan.
5. Cost of funds: Interest on loans will be levied as a markup on the current cost of funds. The current cost of funds for this purpose means the incremental cost of borrowings of the company, its operating cost, loan loss provision and taking into account the operating margins required for growth of the Company.

6. The interest rates charged by the Company shall be expressed in compound rates with monthly rests.

6. Products

i) Gold Loans

The Company's assets are advances granted against the security of gold. Therefore the products profiles are reviewed regularly with a view to customize products in line with market expectations, availability of funds and competitor analysis. Annexure-1

Process Flow for Online Gold Loan (OGL)

In recent years, the financial landscape has witnessed a significant shift towards digital platforms, and one area that has embraced this transformation is the lending sector. Online gold loans have emerged as a popular and convenient financial instrument, allowing individuals to leverage the value of their gold assets without the hassle of traditional lending processes.

Upon a customer's initiation of a Gold loan request at the branch, the staff will initially ascertain the customer's status, distinguishing between existing and new clientele. If identified as a new customer, the branch representative will proceed to gather requisite KYC details and generate a new customer identification. Subsequently, the branch personnel will conduct a comprehensive verification of the gold presented by the customer.

For Online Gold Loan (OGL) it may be noted that the customer has to mandatorily visit the branch first for getting the ornaments appraised and thereafter the sanctioned loan amount is disbursed directly to the customer's account.

During the Online Gold Loan (OGL) registration process, the customer is required to furnish the previously assigned customer ID. The registration page will automatically populate the address and other pertinent details associated with the provided customer ID. Concurrently, the branch is tasked with gathering the customer's banking information for the seamless transfer of the Gold loan amount to their account. Documentation substantiating the bank details, such as a copy of a cheque leaf, the front page of the bank passbook, or a bank statement, will be collated and uploaded on the OGL registration page. Upon the successful completion of the registration process, the branch is authorized to initiate the disbursement through the Online Gold Loan (OGL) disbursement page. Following disbursement, the corresponding amount will be deducted from the corporate account, presently maintained with South Indian Bank & IDFC Bank, and subsequently transferred directly to the customer's account. The transfer method employed is Immediate Payment Service (IMPS) / National Electronic Fund Transfer (NEFT) for amounts below Rs 5.00 lakhs and Real-Time Gross Settlement (RTGS) for amounts exceeding Rs 5.00 lakhs. The maximum loan amount for a single loan is capped at Rs 15.00 Lakhs.

The Interest Payment, Part Payment and top up (Online) Process Flow for customers who have availed a gold loan from us is as follows:

1. Smart Pay Option:

- a. Customers initiate interest payments through Smart Pay, accessible on our official website.
- b. Registration to be done using the mobile number provided during the loan application.
- c. Upon login, customers can view their active loans and proceed to make interest payments.
- d. Payment options include debit card, net banking, or UPI.
- e. It's important to note that Smart Pay exclusively facilitates interest payments and does not support part payments.

2. MyMuthoottu Mobile App Option:

- a. Customers have an alternative payment option through our dedicated mobile app, MyMuthoottu.
- b. The app is currently available for Android users on the Google Play store, with an iOS version under development.

- c. Registration is done using registered mobile number provided during the loan application process.
 - d. Once the registration is completed and upon logging in, customers gain access to a comprehensive view of their active loans.
 - e. This option allows customers to make both interest and part payments.
 - f. Payments can be executed seamlessly through net banking or UPI.
- This dual-channel approach offers flexibility to customers, allowing them to choose between Smart Pay and the MyMuthoottu mobile app based on their preferences and specific payment requirements.

3. Top up loans:

Top up facility is available in the My Muthoottu App for the eligible customers taking into consideration the maximum Loan to Value (LTV) permissible at the time of top-up. The customer can login to our My Muthoottu mobile app and can check whether their loan account is eligible for an enhancement in the amount or top-up.

The existing Online Gold Loan (OGL) customers can view the maximum amount eligible for Top-up in the app and can apply for any amount needed within the permissible top-up amount. During the top-up process, the customer is shown with the different schemes and their interest rates. The top-up amount is directly transferred to the customer account registered with us during the OGL registration process.

For the normal loan customers, there is an option for to add the bank details in the Mobile App. The customer has to attach any bank proof while adding the bank details. These details are verified at our end. These details are approved/rejected according to the details provided by the customer. Once the bank details are approved, the customer can make use of our My Muthoottu App for the top-up services.
